#### WEAK POINTS MADE STRONG. Russians Profess Confidence in Re

sult of Japanese Attack.

Port Arthur, Auril 24. (Delayed in transmission.)—All weak points on both the land and sea sides here have been so strengthened in the last two months that the impregnability of Port Arthur is now regarded as absolutely assured. The garrison has been considerably strengthened and the forts are provided with all necessities for more than a year. Complete confidence prevails with the troops, sallors and inhabitants in the ability of the Russians to defeat any Japanese attack. Remarkable indifference to the possibility of attack is shown by the people. In fact by day there is little to indicate that the town is in a state of siege: The band plays on the boulevard, on which parades are held, finely dressed people stroll about and groups of children play. the Bitter End.

St. Petersburg, April 25.—(7:30 p. m.)—
The Associated Press is enabled to an nounce authoritatively that the talk of mediation in the Russo-Japanese war was founded upon the personal desires of King Edward and King Christian of Denmark to avoid further bloodshed and end the conflict, but that the steps initiated have utterly failed. The emperor, with the full concurrence of the imperial family and his advisers, has firmly decided not only to reject all proposals looking to intervention, but to prosecute the war with all the resources of the empire until victory crowns the Russian arms, and then, when the time comes for

#### RUSSIAN STRATEGY.

#### Force of Cossacks Threaten Japanese

St. Petersburg, April 25.—General Kuropatkin has played a strong card in the game of strategy. A large portion of General Rennenkampff's Cossack cavalry division has been thrown across the upper reaches of the Yalu and a considerable force of cavalry which crossed the Tumen some time ago is moving down to the southwest to effect a juncture with it. Together with this force which, it is believed, totals 2,000 men, he will threaten Lieutenant General Inouye's left flank when the Japanese are ready to cross lower down on the Yalu. Being composed of cavalry, with a few mountain guns, Rennenkampf's force is extremely mobile. Unless it should be dislodged, it will compel the Japanese to leave a very strong army to guard the communication, whereas if a Japanese force should be sent to drive it out it would have to move directly away from the main army, while the Russian army, if compelled to fall back, can recross in the direction of the Russian troops concentrating in Manchuria. The family tomb of the Livingstons, on the ancient Livingston manor place, was broken open on Saturday night and robbed of its dead.

#### Now Six Years Old with Thick Hair and Clean Scalp. Care Permanent.

"My baby was about six weeks old when the top of her head became covered with thick scales, which would peel and come off, taking the hair with it. It would soon form again and be as bad as before. I tried several things and then went to the doctor. He said it was Eczema, and prescribed an ointment, which did not do any good. A friend spoke of Cuticura Soap. I tried it and read on the wrapper about Cuticura Olatment as a remedy for Eczema. I bought a box and washed her head in water and Cuticura Soap and gently combed the scales off. They did not come back and her hair grew out fine and thick. She is now a year and a haif old and has no trace of Eczema."

With the same cortege President Loubet drove in the president for the Western Federation of Miners, on bail pending a decision in the habeas corpus proceedings in his behalf. The hearing on the merits of the case was set for May 5. Meantime Moyer will be held as prisoner in the military bullpen at Telluride.

tion and under the conditions shown to exist, declare martial law and as incident thereto suspend the writ of habeas corpus? If the constitution au-

If the power to declare martial law and suspend the privileges of the writ of habeas corpus is confined by the constitution to the legislature, the governor is without authority to detain the petitioner and we have no jurisdiction to discharge him.

#### Questions at Issue.

"At the time of the issuance of the writ it was stated that we preserved the right to pass upon the question of our jurisdiction when final disposition our jurisdiction when final disposition was made of the case, and if we were now to admit the prisoner to bail, we should in effect, determine that we have jurisdiction and should, pending the hearing, grant all the relief that the petitioner demands. If the liberty of the petitioner alone were involved, we should probably resolve the doubt in his favor, admit him to bail and determine the question of jurisdiction afterward; but the head of the executive department of the state has stated in the return to the writ that in his sole management, peace and tranquillity martial law in San Miguel gounty was removed today. General Sherman M. Bell left today for Denver and Captain Bulkeley Wells is in command of this military district.

The return to the with the season and tranquillity cannot be restored in the county of San Miguel, unless the petitioner remains in the custody of the military authority. Therefore, the matter involved affects not only the liberty of the military district.
